For the past 35 years Midwest Tropical has led the industry as the most experienced water feature manufacturer who pioneered the Water Wall and invented the enclosed Bubble Wall.

A water feature is the focal point of a room and our hand crafted and patented features announce the pride, partnership and enjoyability that people remember.

With quality, dedication and longevity we build thousands of designs in—

As one of the most experienced water feature manufacturers in the country, we offer you uncompromised service throughout the design, construction, installation, completion and service stages of your project with the highest quality materials and design services.
WHAT WE DO
Midwest Tropical specializes in soothing, tranquil water features that are hand crafted in a state of the art design studio and manufacturing facility near Chicago. This allows for customization from step one and a true dedication to quality which ensures a product far superior to anything else in the market.

Our team of designers and craftsmen have over thirty-five years of experience with quality materials including: stone tiles, stainless and copper metals, custom logos and finishes with acrylic and glass - creating stunning AquaFall™ Water Walls, Waterpanel™ Bubble Walls, Rain Curtains, and Bubble Tube Displays, along with custom created shapes and styles.

WHY CHOOSE US
At Midwest Tropical our first priority is to provide the highest quality service and design support to transform your ideas into flowing water. As the most established water feature manufacturer, Midwest Tropical is able to draw on 35+ years of extensive experience manufacturing and designing custom water features.

We bring the necessary confidence to your project as the most knowledgeable expert providing live photos and videos to make your vision a reality. Those that have worked with Midwest Tropical know that our process is turn-key and a satisfying collaboration - resulting in a spectacular water display.

We are proud to be a second generation family business. Our clients and customers consider us part of their business family and we treat them like ours. This personal level of attention has kept us in the forefront of the industry we created.

What you have seen so far is only the beginning.
Call us today at 800-775-6764 to learn more!

HOW WE DO IT
At Midwest Tropical, standard is not part of the vocabulary. Each Water Wall is customized to your design needs to enhance your environment. To begin the process, simply share your desired width and height:

- CAD drawings will be supplied which specify the components, finishes and dimensions of your water feature, and any MEP coordination.
- Expert recommendations on material selections will be chosen to fit your budget as well as a complete budget analysis.
- Photo mock-ups can be created to build excitement and help everyone visualize your finished project.
- Our fabricators and craftsmen will hand craft your piece in-house at Midwest Tropical's state of the art manufacturing facility. Your unit will be water tested and inspected by our Quality Control Managers.
- Your feature will be packaged in a custom shipping container and your project manager will work closely with you to schedule shipping and an optional installation time line that works best for you.

These are just a few of the quality materials we use:

Oklahoma City, Oklahoma
PLUG AND PLAY

- Prefabricated and water tested so they function properly right out of the box.
- All you need onsite is standard electrical near the basin.
- Choose Size and Style:
  - We offer a variety of standard sizes to expedite your design and ordering process. Each piece is hand crafted in our shop in Chicago.
  - Standard sizes come in 4’, 5’ and 6’ widths paired with 8’,9’ and 10’ heights.
  - Three material choices with Black Scored Acrylic AquaFalls™, WaterPanel™ Bubble Walls and Glass Water Walls which can be center mounted, rear mounted or even mounted into your wall.

ADD A LOGO

- Personalize your AquaFall™, WaterPanel™ and Water Wall by adding your business’s logo. We create digital print vinyl, etching or even off-mounted logos.
- Depending on your design and budget we will recommend the best treatment to make your water feature truly unique.
